

Ludington

Most boats stay at the Ludington Municipal Marina (231) 843-9611, while some others stay at Harbor View. Both marinas are very nice while Harbor View is a bit more expensive to stay. Both marinas have fish cleaning stations.

To Boat Ramp: As you come into Ludington on US10 West, turn left on Williams St. Turn right onto Loomis and follow Loomis to the end to get to the Boat Ramp. The map below shows differently but the boat ramp is still within the breakwalls of the harbor and is completely protected.

To Municipal Marina : Heading west on US10 turn left on Ludington Ave. (Williams Street is on the north side of US10 while Ludington Ave. is on the south side of US10) . , go two blocks and the Marina will be on your right hand side. Signs to the Boat Ramp & Marina on posted on US10.

Weigh-In : The weigh-in is held at Waterfront Park directly across from the Municipal Marina.

They also have a few of the side streets closed due to construction but they do not interfere with the directions above. They are tearing down older buildings to build Condo's.
